SUMMARY

- AIRCRAFT SHIPPING CRATES at CHU-HSIEN AIRFIELD

Special interest items include airfields, artillery parks, and transportation.

AIRFIELDS

CHU-HSIEN AIRFIELD (28°58'N-118°53'E): [REDACTED] 79 aircraft were noted on the airfield. Of these, 48 FAGOT aircraft were in the west revetment area, 2 were on the hangar apron, 28 FRESCO aircraft were in the east revetment area, and 1 was unidentified. Twelve aircraft shipping crates were on the hangar service apron. Ten crates, probably empty, were scattered along a road 450 feet northwest of the largest hangar.

25X1D

CHIA-HSING AIRFIELD (30°43'N-120°41'E): Approximately 59 MIG type aircraft were visible on aerial photography dated [REDACTED] An accurate count and identification was not possible because of the light tone of the aircraft and poor photographic quality.

25X1D HANG-CHOW AIRFIELD (30°19'N-120°13'E): On aerial photography dated

[REDACTED] 47 BUTCHER and 4 COACH aircraft were visible on the runway and taxiways.

25X1D CHIN-HUA AIRFIELD (29°06'N-119°40'E): On photography dated [REDACTED]

25X1D

[REDACTED] there was some indication of rehabilitation of the runway. Trucks and probable scrapers were in use, but, there was no indication that the runway was being lengthened or that taxiways or other facilities were being added to the airfield. The runway can be extended to the east, but its extension to the west is limited by a stream channel.

NAN-TAI, LUNG-TIEN, HUI-AN, CHING-YANG, MA-CHIANG, KAO-CHI, LUNG-CHI, CHENG-HAI, and LIEN-CHENG AIRFIELDS: No significant changes were noted on aerial photographic coverage of these airfields.

MILITARY

TAI-SHAN ISLAND ARTILLERY PARK (30°17'N-122°10'E): [REDACTED]

25X1D

16 unidentified field artillery pieces and 16 trucks were parked near a barracks area on Tai-shan Island. Cloud cover prevented a more detailed analysis of military facilities on the island.

25X1D CHOU-SHAN ISLAND ARTILLERY PARK (30°05'N-122°06'E): 26 unidentified field-artillery pieces were located in a barracks area on aerial photography dated [REDACTED] Cloud cover precluded a more detailed study of facilities on the island.
